# Cortebert Watches

WORLD FAMOUS SINCE 1790

Few watches sold in America bear an older or prouder name than Cortebert. The first Cortebert (pronounced CORK-T-BEAR) was designed and made more than 155 years ago by the Swiss watchmaker, Adam Louis Julliard. From that date, six generations of this gifted family have carried on the skill and craftsmanship of the founder. Today Cortebert watches are universally recognized as ranking high among the finest watches in the world. Shown above are only a few of the many medals Cortebert watches have won in international exhibitions and regulating competitions.

Cortebert is more than just a fine watch. It is a precision timepiece with the remarkable "dynamic pole" movement developed by Cortebert, which maintains perfect balance and accuracy in any position of the wrist and in a wide variety of temperature changes—the result of amazing exactness and infinite skill in the fitting together of every perfect part. Cortebert movements are anti-magnetic—protected from magnetic impulses which often interfere with the accuracy of a watch. All this assures you the utmost in accurate, dependable timekeeping.

Sears has been selected by Cortebert as their sole United States distributor. We are honored to offer these fine watches at prices within the reach of all. They may be purchased on Sears convenient Easy Payment Plan—see page 174C for details.

## 17-jewel Cortebert . . . with individual certificate of time-keeping excellence

One of the most critical watch-testing laboratories in the world—an official bureau of the Swiss government—has tested each of these watches. Each was tested for time-keeping accuracy in five different positions and in extreme heat and cold according to the most impartial and rigorous tests that can be applied in a watch. And each was awarded the Bureau's certificate. Here is further evidence of the fine quality and time-keeping excellence of the Cortebert movement—a quality which is the same for every Cortebert watch as for this one.

The case is a beauty—solid 18K yellow gold of extra heavy weight, carefully hand-finished. A silvered dial with applied gold numerals and clear, thick beveled crystal add to its richness. Genuine leather strap.

# U. S. Government Bonds are the best buy in the book

*not only for the present  
but also for the future*

**Start your Gift List with U.S. Savings Bonds.** Give them to the most important people on your list; your parents, the pal you count on, the girl you married or the boy you are engaged to, your sister, your brother, or your children . . .  those whose lives are vitally linked with yours. For them a U. S. Savings Bond will be a gift that keeps on giving, increasing in value through the years.

**Sears is now a U. S. Bond Agency.** At the request of the United States Treasury Department, Sears, Roebuck and Co. has been authorized to sell Series "E" Bonds in the Catalog . . . and just in time for your Christmas shopping!

**USE THE ORDER BLANK ON OPPOSITE PAGE**

**"E" Bonds grow into more money!**  
For example, you pay \$75 for an E Bond that increases in value until it's worth \$100 when it matures ten years later. An E Bond is issued as of the first day of the month in which we receive your remittance. If you hold it to maturity you get the equivalent of 2.9% interest, compounded semi-annually, on the money you invest. If it becomes necessary, you can redeem an E Bond at most local banks any time after sixty days from the issue date and immediately get back its current value which will be at least as much as you paid for it. And the longer you hold it the more it's worth up to its 10 year value.

**You get Satisfaction Guaranteed AND your money back!** You buy Bonds now, to bring the boys back home, to provide for our wounded and disabled, to help keep the lid on prices, to help prevent hard times. At the same time Bonds are a good nest egg for home improvements, for replacement of buildings, machinery, stock; for the children's education; for a veteran's postwar start; for old age security; for a guaranteed income, or a cushion against lower farm profits.

**Every Bond bought from Sears is credited to the district from which your order comes, by amount, not by your name.** Your name is always kept confidential by the Treasury Department.

**Series "E" Bonds may also be bought** at most postoffices, banks, savings and loan and building and loan associations, Production Credit Associations, National Farm Loan Associations, theaters, and other qualified agencies. And: direct by mail from the Treasurer of the United States, Washington 25, D.C.

Please keep a record of the serial numbers of your Savings Bonds. And keep the record in a different place than you keep your Bonds. If you lose a Bond, report the loss to the Division of Loans and Currency, Treasury Department, Merchandise Mart, Chicago 54, Illinois.

When ordering U.S. Bonds direct from Sears, use convenient order blank on right.

**For further information or additional U.S. Bond Order Blanks, write Sears, Roebuck and Co., Dept. 169.**

### Charge your battery in your car with an ALLSTATE Home Battery Booster

- Recharge battery in car—hang booster on wall and clip on to battery
- No danger of overcharging—charging rate tapers off automatically
- Dry rectifier type booster—no bulbs, no acids, completely noiseless
- Rugged construction—nothing to wear out, nothing to replace

Now you can make your battery last longer! Keep it from deteriorating during lengthy "idle" or storage periods when car is out of use. An ALLSTATE Home Battery Booster adds to the life of your battery . . . keeps it at peak performance at all times. Costs less than 1c per hour to run. The amperage rate of the booster you buy determines how long it will take to boost battery up to normal. 28 N 7175 will raise average car battery to full power if left on overnight. Easy-to-use . . . hang booster on garage wall, connect to A.C. light socket, attach other end to battery.

You can't take more power out of your battery than you put in! Table below shows number of amperes average car generally takes from its battery. And on most cars built before 1937, the generator doesn't supply more than 14 to 16 amperes. Make up this power-stealing loss with an economical Home Battery Booster. It operates on any 50-60 cycle 105-120 volt A.C.

### Portable Underhood Motor Heater

Get "heated garage" protection for as little as 1c a day with one of these portable kerosene underhood heaters. Just hang it under hood of car and cover the hood with a blanket. Your motor will stay warm and start instantly, even on zero mornings. This is especially important when you are not operating your car often. Quicker starting means a saving on gas and battery power, too. Motor heater keeps engine lubricants and water in cooling system at the proper temperature, thus avoiding excessive motor wear.

Fill heater with kerosene only once in 24 hours and it will give a steady, ample heat. Will not blow out or ignite gas fumes. Safe—made on same principles as a miner's lamp. Gives a clean, odorless heat. Heater is lightweight and compact (only 14 in. high) . . . easy to carry.

This handy portable heater can also be used to help keep heaters warm in duck blinds, help heat trailers and chicken coops, etc. At this low cost you can afford to have a heater for all such needs.

#### Important Notice regarding Tire Rationing

**IMPORTANT!** As this catalog goes to press, passenger and truck tires are still rationed and a ration certificate is required. *However, if tire rationing should be lifted during the life of this catalog, we will fill your orders without a certificate.* Until rationing is officially lifted, you must send a certificate with your order. Tractor tires and all inner tubes are ration-free.

To obtain Tire Ration Certificate, it is necessary for you to have your tires inspected at an authorized OPA Tire Inspection Station. If a new tire is needed, the inspector will so state on your Tire Inspection Record. You must then fill out an application for a new tire and present it with your Tire Inspection Record to your local Ration Board. If your application is accepted, your Ration Board will issue to you a Tire Ration Certificate. When you receive your Tire Ration Certificate, be sure to sign it wherever required (including part A), before sending it to us. Mail all three parts of your Tire Ration Certificate, properly signed, to us with your order for ALLSTATE tires. *Be sure that all three parts are properly endorsed.*

#### ALLSTATE Guarantee

Every ALLSTATE Tire or Tube is guaranteed to be free from defects in workmanship and material, and to give service consistent with the material used. If our examination shows that such tire or tube has failed under the terms of this guarantee, we will either repair it or make a reasonable allowance on the purchase of another tire or tube. We do not guarantee an ALLSTATE Tire or Tube when it has failed as a result of overload, excess speed, improper inflation, abuse or other non-defective conditions, or when it has been used on rims not conforming to Tire and Rim Association standards.

#### Install a new tube with each new tire

For top tire economy, install a new tube with each new tire. A new tube holds air longer—gives you better wear from both tire and tube. Be sure that you get the best quality... install ALLSTATE Full Circle Molded Inner Tubes. Only the finest materials obtainable go into the manufacture of ALLSTATE Inner Tubes. They are built to give long, trouble-free service; to hold air for a long time. Full circle molding means that ALLSTATE tubes are smooth and wrinkle-free when installed—when properly installed it is almost impossible for an ALLSTATE tube to wrinkle or pinch even under the toughest driving conditions.

Each ALLSTATE Inner Tube has an air-tight standard Schrader type valve cap for added protection. These caps provide double protection by sealing air in and keeping dirt and dirt out of the valve. By preventing loss of air, they lengthen the life of both tube and tire. No ration certificate is needed to order ALLSTATE Tubes—inner tubes are ration-free. Install a new ALLSTATE tube with each new tire, replace worn tubes with ALLSTATE. You are sure of getting inner tube quality second to none, regardless of price.

## Marbleized Linoleum

### Floor Fitted Design 1

Laying Floor Fitted Linoleum is so easy . . .  
do it yourself and save most of installation

You can have any of the colorful, permanent linoleum floors shown here easily by buying from Sears. We "floor fit" the linoleum—figure the exact amount needed to cover your floor—with waste properly placed . . . then you have cut it to smooth, accurate fit. Everything needed to install the floor is included—instructions, paste, spreader, chalk, chalk line.

You actually save money in most cases over the old way of buying by the foot, because you pay only for what is used on the floor. Furthermore, laying it is so simple you can do it yourself—save cost of professional installation. No troweling to do, no map cutting, no waste.

This floor design, with a single marbleized color used wall to wall, lends a feeling of spaciousness to small rooms . . . harmonizes extra large or connecting rooms. Offered in five lovely colors. The linoleum is fine Harmony House quality—has Patented Felt Back that pastes directly to floor—no separate lining to buy and install. Each marbleized color can't wear off because they are blended all the way through the wear layer to Patented Felt Back. Surface it was sealed at factory to make it stain and abrasionproof . . . regular washing keeps it that way.

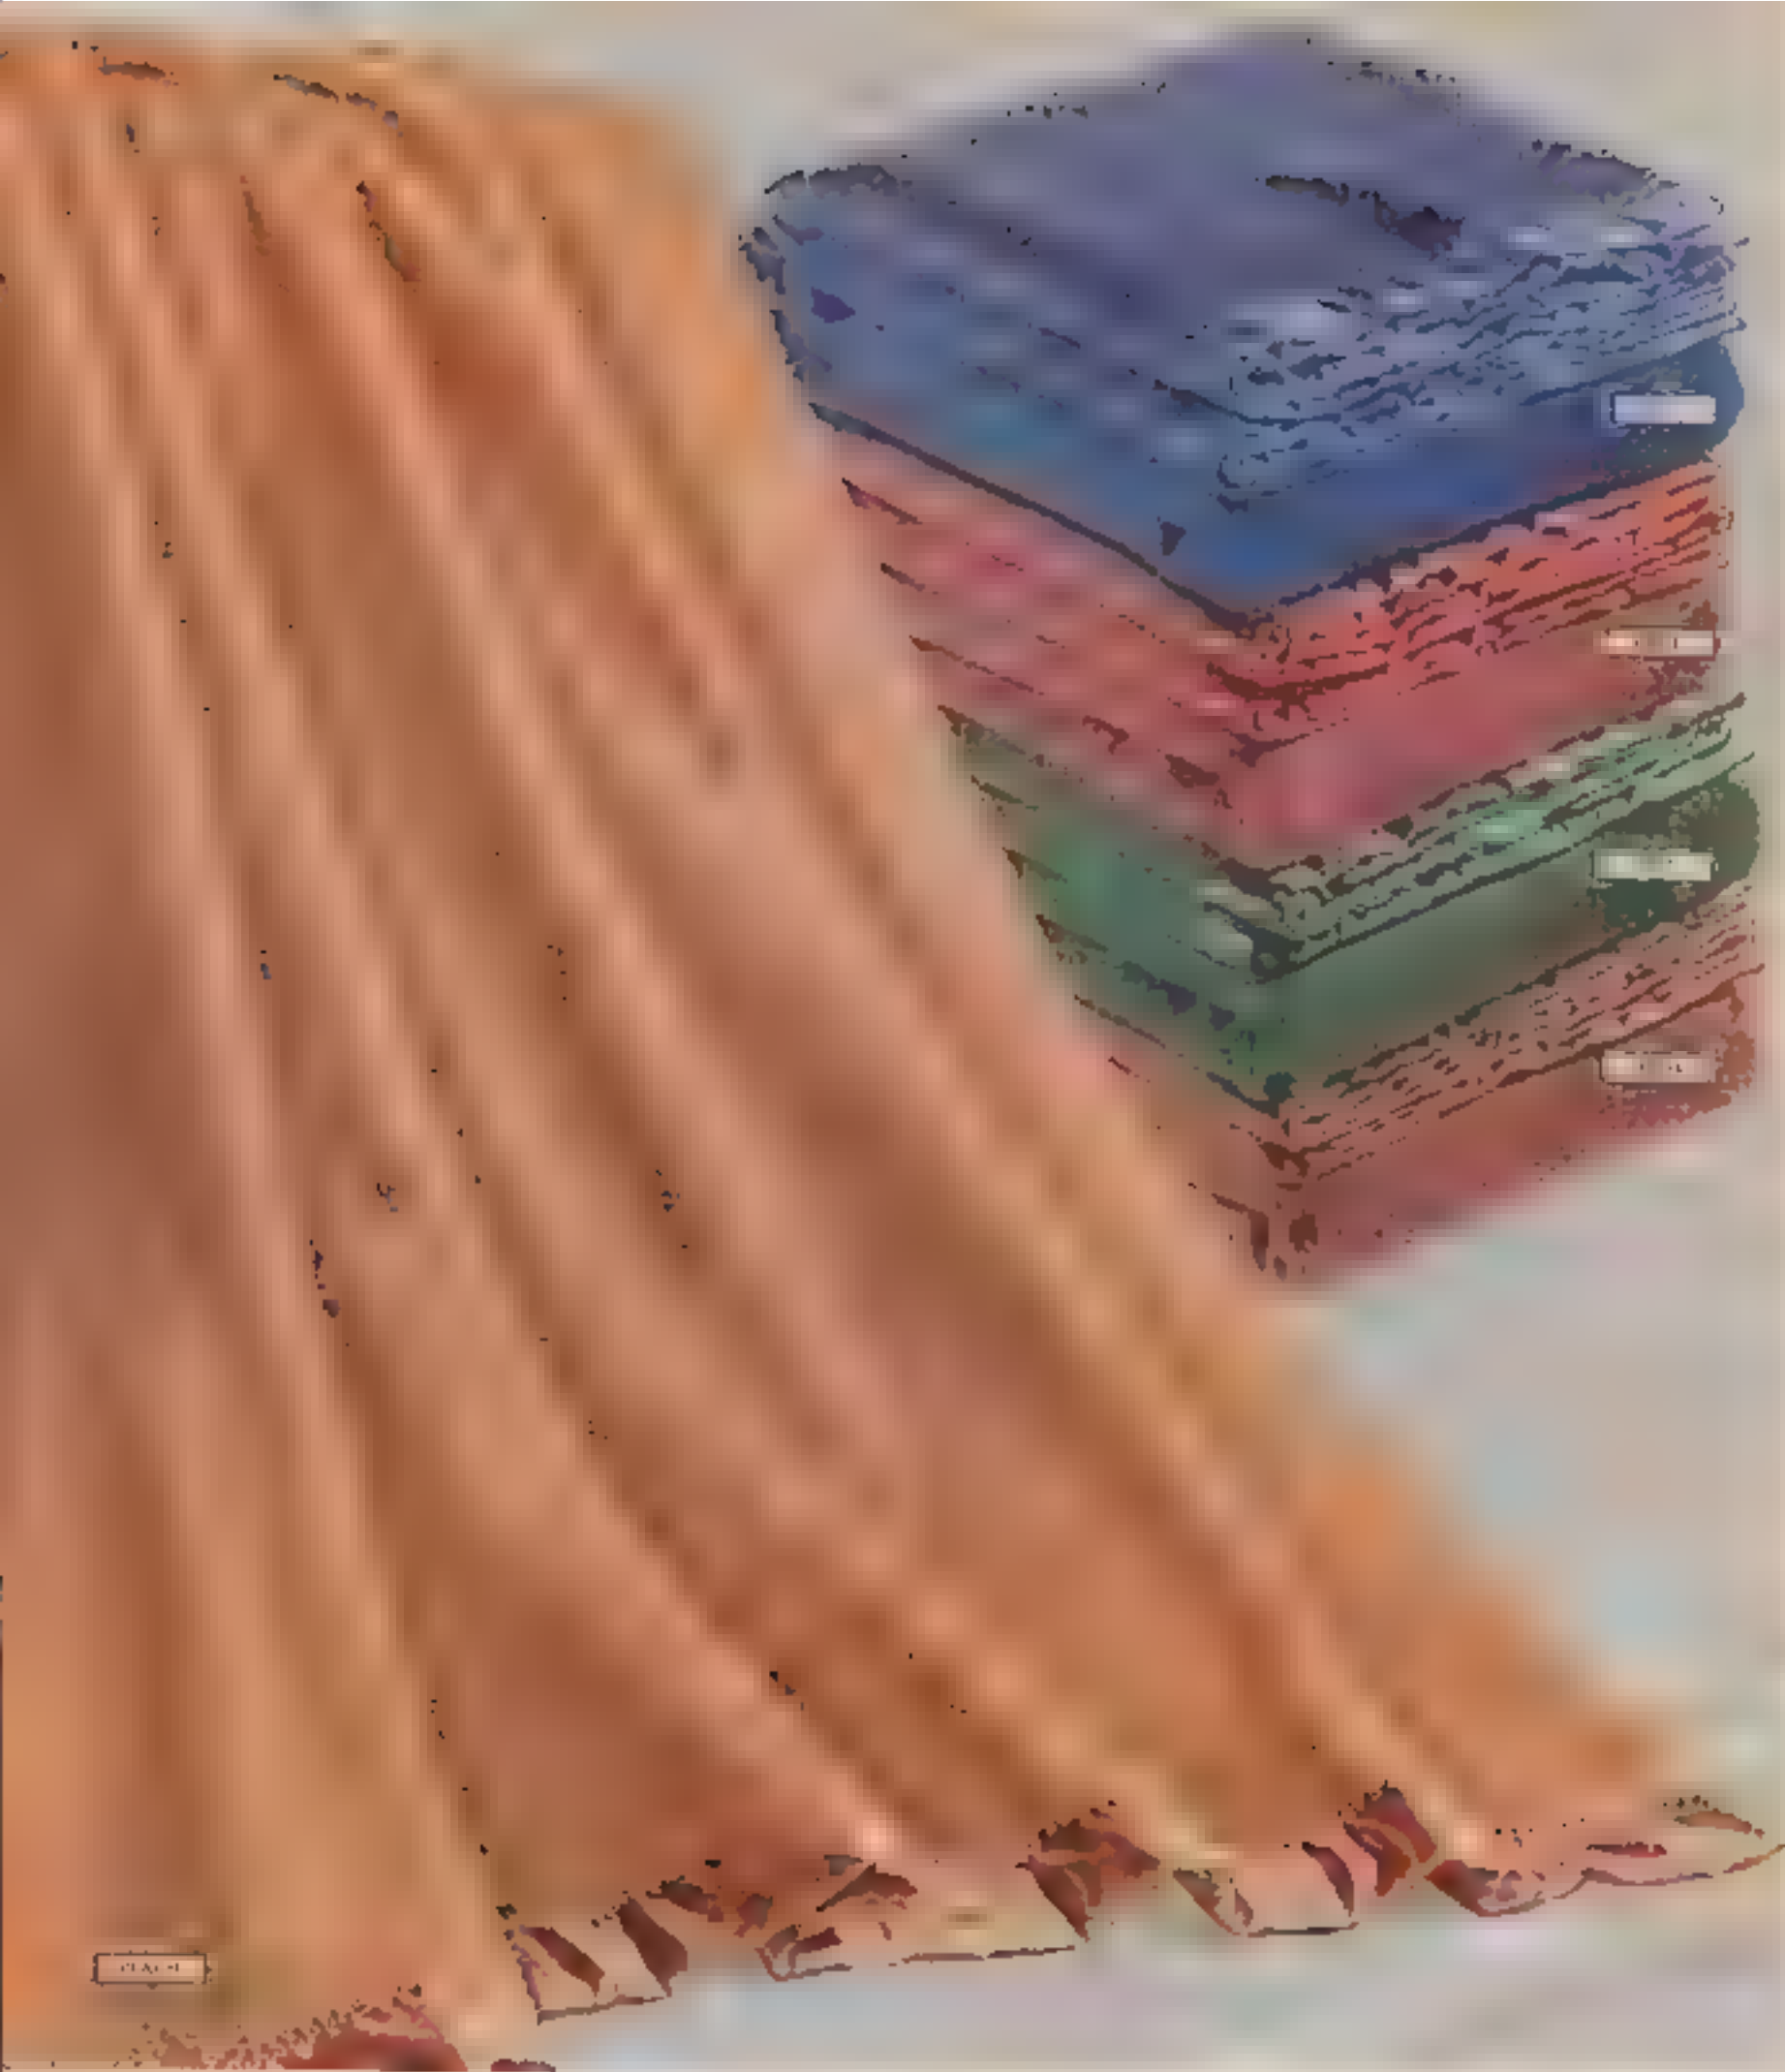

**How to Order.** Choose the color desired and state catalog number, Floor Design 1, and room size wanted from the table below. (To find room size quickly, look for number description first.)

Order this linoleum on Sears Easy Terms and pay for it while you use it. See page 170 for complete details concerning this Easy Payment Plan.

SEARS, ROEBUCK AND CO., KANSAS CITY 14, MO.

Thanksgiving and Christmas  
soon will be celebrated throughout America.

Celebrated as never before in our lifetime.  
For this is the year of Victory—and Peace.

Reverently we will give thanks  
for the glory so dearly bought.  
Gratefully our carols will rise  
to reach those who have not yet rejoined us.  
Silently and prayerfully we will remember  
those who will never return.

We here at home  
safe in the land we love  
preserved from the ravages of war  
know that this year we have cause  
to keep the great days sacred.

So we return once more  
to the old ways and the old customs;  
to the family gathering 'round the festive board;  
to the bounty that is ours  
as harvest days are over.

Again the Christmas tree will glisten,  
the Yule logs blaze  
and the presents made ready for Santa's visit.  
Again Merry Christmas will echo and re-echo  
as there is truly  
"Peace on Earth, Good Will to Men."

*Peace* + + + +

This should be a happy year,  
a year of memory forever.  
For this is the year of Victory—and Peace.

Our wish—the wish of all of us at Sears—  
is that your Thanksgiving  
be the most thankful you ever had.  
And your Christmas the merriest.

G. W. Cunningham,  
Advertising Manager, Sears, Roebuck and Co.
